Project Title: ASL Website

I'd like to build this site as multiple pages, rather than a long, single page website. I mainly want it to serve as a basic overview to ASL with history, alphabet, and basic grammar. All the information can be found here:

https://en.wikipedia.org/wiki/American_Sign_Language

•Intro Page: not much content just serve as overview of the site with some insight into asl

- o History
- o Population/ Deaf culture
 - o Other signed languages
- o Grammer
 - Basic sentence structure
 - Finger spelling
 - Alphabet

Sources – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
